

TARGET

Compact advanced training for biopharma with laboratory training

TARGET GROUP

Employees of pharmaceutical companies without relevant biotechnology training

DURATION

1 Year
Start: 2024

1	February	Prep-School	5.0 d
	May	Theory modules I	5.0 d
	June	Theory modules II	5.0 d
	July	Lab Training	5.0 d
2	August	Lab Training	5.0 d
	September	Theory modules I	5.0 d
	October	Theory modules II	5.0 d

The holding of unit 2 is optional, depending on the registrations ...

- Prep-School (optional)**
- Basic laboratory techniques
 - Molecular biology
 - Clean room technology
- Theory modules I**
- Production in biopharma 1.0 d
 - Industrial standards, GMP 2.0 d
 - plant construction 2.0 d
- Theory modules II**
- Data analysis, Statistics 1.5 d
 - Digitalization in production 1.5 d
 - Project management, IP 2.0 d
- Lab Training**
- Plant operation (NIBRT)
 - Fermentation
 - Cell culture
 - Biocatalysis
 - tba

Costs approx. 15,000 euros per participant
50 % funded by FFG COMET program

One training is included in the price, further trainings are optional

Contact: matthias.slatner@acib.at

- Theory modules (optional)**
- Innovation management
 - Financial training
 - tba

SUPPORTED THROUGH FFG COMET FUNDING PROGRAM
